## COMPLAIN OF USE OF SEINE

**Local Anglers Say That a Party of Men Have Been Making Big Hauls.**

**FISHING IS GOOD THIS YEAR**

**Seining is Against The Law and Fish Commissioners May Swoop Down Any Time.**

Much complaint has been heard concerning the seining of fish in Flatrock. Local anglers are worrying over the good fishing that is being spoiled and say that as they know a number of men who are regular in catching the fish in a seine and bringing them in big bunches. Several well known fishermen say that they are certain that a party of men have been making regular trips, when they use a seine and bring back a good big catch.

The local anglers who are complaining are not jealous because they could take the same risk if they so desired. They only think that the seining spoils the sport. They believe in giving the fish a fair show and catch them with the hook and line in a systematic manner. They are of the opinion that the sport is not a sport when a man goes out with a big seine and drags in all the fish in the river and leaves none for his fellow fishermen to catch.

They have as another reason that it frightens the fish and makes fishing bad even if there are any left in the stream. Several local anglers who think more of the sport than any other pastime and who spend all of their extra time on the river bank, say that the fishing in Flatrock this year is extra good, better in fact than it has been for some time. They say that they have seen several fine bass in the river, but they fear that they may all be dragged in one haul, if the seiners get in a good night. They would like the sport of catching them with a hook and line.

There is another phase to the question which the party of men, whom it is said have been seining, might consider. There is a law against seining and it is possible that they may be caught in the toils. Fish and game commissioners are very numerous and it is never known when they may happen in a community. They generally work in "gum" shoes and slip in when they are least expected. They have been working successfully in all of the adjoining counties and it is never known when they may swoop down on Rush county.

## WELL KNOWN MAN TAKES OHIO BRIDE

**Mr. and Mrs. Elmer Bohannon Here For a Short Visit With Mrs. Mary Bohannon.**

**WERE MARRIED JUNE NINTH**

Elmer Bohannon, who is well known in this city, has arrived here with his bride for a short visit with his mother, Mrs. Mary Bohannon in North Morgan street. Mr. Bohannon married Miss Maude Webb of Cincinnati on June ninth at the bride's home. They have been on a two weeks' wedding trip to Martinsville. The bridegroom was formerly in the cigar business at Dayton, O., having disposed of his interests in that city a short time ago.

## MILROY MEN GET IN BAD

**Two Pay Fines in the Greensburg Mayor's Court.**

Chief Johnson raided the place of Ida Wilson an Railroad street Saturday night and found John Bruce and a couple of men from Milroy, says the Greensburg News. The four were fined and costed \$12 each. Johnson also arrested Harry Hill for drunk and John Smith for fighting with his wife. The latter two were dismissed with some good advice.

## CONFESS TO BEING TWO OF JOY RIDERS

**Prominent Young Men Admit They Were Members of Party Which Took Gordon Machine.**

**WILL NOT PUSH PROSECUTION**

Two local young men have confessed to being members of the party which was "joy riding" in Guy Gordon's automobile last Thursday evening. No arrests have been made and it is very probable that the prosecution will not be pushed. Friends of Mr. Gordon told him that they saw the two men around the barn and City Marshal Harlow was notified. He went to the two young men and they confessed to being members of the party. They, however, refused to give the names of the other three members of the party and say that they did not have anything to do with the theft of the machine. It has since developed that the party of young men drove to Stringtown that night to a church festival. In turning around they backed the machine into a telephone pole and damaged it to some extent.

## FORMER RESIDENT EXPIRES IN IOWA

**Dr. C. H. Gilbert Receives Word of Death of His Sister Mrs. Fon Burt.**

**LEFT HERE SIX YEARS AGO**

Dr. C. H. Gilbert received a telegram this morning telling of the death of his sister Mrs. Fon Burt which occurred at her home in Onawa, Iowa last night. The message received here did not state the cause of the death, but it was later learned that congestion of the liver was the fatal disease. She had not been sick long and was not thought to be in a serious condition. They received a letter from her about one month ago in which she said that they were all in good health.

Mrs. Burt is well known here where she lived until six years ago, when she together with her family moved to Iowa. Her husband has been in the dry goods business there. He was in the same business here. Mrs. Burt was considered a bright woman and was a musician of ability. She was graduated in music while a young woman and taught music here for a number of years. The body will arrive in Indianapolis tomorrow afternoon where the burial will take place. Mrs. Burt is survived by her husband and two children, a boy and a girl.

## MUSICAL TREAT WILL BE IN STORE

**Benefit Concert Tonight Will Present City's Best and Largest Array of Talent.**

**LARGE CROWD IS EXPECTED**

**Proceeds of Entertainment Will be Given to Mrs. Headlee, Widow of W. O. Headlee.**

For a very small price of admission one of the rarest and best musical treats ever given in this city can be heard at the Main Street Christian church this evening when the benefit concert will be given for Mrs. Headlee, widow of W. O. Headlee. The program shows that the program to be rendered is of much merit and is worth much more than the nominal sum of twenty-five cents which is charged. All of the best musical talent in the city will be arrayed in an effort, each to outdo the other. It is an opportunity which music lovers can not afford to miss and which others should attend for the good which the proceeds may do.

The money made on the concert, which will be practically all of the door receipts, as the expenses of the entertainment have been very small, will be given to Mrs. Headlee, who, together with her four young children were left almost penniless several days ago, when W. O. Headlee died after a long and heroic struggle.

Indications point to the fact that an immense crowd will fill the church for the concert tonight. Many people have been selling tickets and a large number have been disposed of. The following program will be given: "Festival Te Deum" (Dudley Buck); "The Stilors Grave" (Arthur Sullivan)—B. F. Miller.

(a) "At Thy Feet" (E. Greig); (b) "Giga" (B. Galluppi)—Harold McClanahan.

(a) "Recompense" (Wm. G. Hammond); (b) "Summertime Song" (Oley Speaks); "The Year's at the Spring" (Mrs. H. H. A. Beach)—Miss Hazel Cox.

Quartet, (Selected)—T. A. Craig, E. B. Thomas, E. R. McClanahan, F. M. Sparks.

(a) "He and She" (Liddle); (b) "Noon and Night" (Hawley)—Jesse Pugh.

(a) "To Spring" (Greig); (b) "Air de Ballet" (Chaminade)—Miss Martha Hogsett.

Duet, "Go Baffled Coward, Go" (Handal)—Jesse Pugh and B. F. Miller.

"That Old Sweetheart of Mine" (Riley)—Miss Norma Smith.

(a) "Phyllis Has Such Charming Graces" (H. Lane Wilson); (b) "When Phyllis Takes Her Vocal Lesson" (Louise Ayres Garnett)—Miss Hazel Lytle.

"Fantasia Impromptu" (Chopin)—Miss Olive Buell.

"Estudiantino" (Comer)—Glee Club, Prof. Craig, director.

Accompanists—Mrs. Mary Dean, Mrs. Jeanette Pugh, Miss Jeanne Bishop, Miss Martha Hogsett.

### GO TO HEAR CLARK.

Gilbert Boys, George T. Aultman, Frank Redman and Benjamin F. McFarlan went to Connorsville Sunday to hear the Rev. W. H. Clark, pastor of the Presbyterian church there, who only recently resigned the pastorate of the United Presbyterian church here. He had many friends here who were loath to see him leave.

## THE WEATHER

Fair tonight and Wednesday.

## BIG WEDNESDAY NOW PERMANENT

**Seventy Business Men Agree to Hold Six More Bargain Days After Next One.**

**SIGN A PAPER TO THAT EFFECT**

**An Effort Will be Made to Bring Novel and Unique Attractions Here Then.**

"Big Wednesday" is now permanently established. After a long and tedious canvas the members of the press committee have been able to get seventy business men to sign their names to a contract which binds them by honor to hold six more "Big Wednesdays" one every two weeks, after the next one which will be held June 29. It is highly probable that more merchants will be persuaded to place their names to the list.

The articles of agreement which the merchants signed provide that six more big bargain days will be held and that an effort will be made each time to eclipse the last one. The members of the press and entertainment committee pledge themselves to do everything within their power to get a high class attraction here on these days to draw the trading public from the adjoining country to the city.

It is possible that the committee may spring a big surprise on the next "Big Wednesday" or possibly later. They are planning to get some novel and unique attractions here which will make it worth while for the farmer or even residents of adjoining cities to come. The day will be made a big day for visiting and pleasure and in the meantime patrons of the Rushville business houses will have an opportunity to get some rare bargains.

An effort will be made to make the days more of a holiday than anything else. The business men are urged to decorate their store fronts so that all Rushville will put on a gala day appearance on that day. This feature was remembered more on the last big day than it was the first and it is hoped that it will not be forgotten by anyone next week when the next "Big Wednesday" will be held.

The articles of the paper which the business men signed provide that the receipts from "Big Wednesday" shall all be paid into the treasury of the Retail Merchants' Association and all of the bills shall be paid out of there. They will all be read and allowed at the next regular meeting of the association after the big day.

## REGULAR SHOOT TO BE HELD TOMORROW

**New Ideal Legget Trap Has Been Installed at the Rushville Gun and Country Club.**

**THE MEMBERS TO PARTICIPATE**

The regular fortnightly shoot of the Rushville Gun club will be held tomorrow at the grounds, east of the city. A new Ideal Legget trap has been installed at some expense. The trap is a great improvement over the old one, being more accurate and having more force. Only the local members of the club will participate in the shoot tomorrow.

## COLLECTION ENLARGED

**Picture of Brown County Log Jail is Added to Gallery.**

Jabez Smith, custodian of the Rush county court house, has added a picture of the Brown county log jail to his collection of relics, pictures and antiquities in the county sheriff's office. The Brown county jail is the only log abode of incarceration in the State. The picture was a present from T. E. Gregg.

## YOUNG BUSINESS MAN TO BE BENEDICT

**John Demmer Goes to Kokomo Where he Will be Married to Miss Josephine McIntee.**

**CEREMONY WILL BE THURSDAY**

John Demmer left this morning for Kokomo, and will return home a benedict. Miss Josephine McIntee, a young woman of Kokomo will be the bride. The ceremony will be performed at a nuptial high mass Thursday morning at six o'clock at the Kokomo Catholic church. After the wedding Mr. and Mrs. Demmer will take a wedding trip to Seymour, where they will be the guests of Mr. Demmer's sister, Mrs. Lote Carter, and family. The guests from here will be Mrs. Mary Demmer, mother of the bridegroom, Pete Demmer, Miss Margaret Carroll, Ben Oster, Father Cronin and Eddie McKee. Miss Kathleen McIntee, a sister of the bride-to-be, will be maid of honor and Eddie McKee will be best man. Mr. and Mrs. Demmer will reside in this city, where Mr. Demmer's business is located.

## CORRECT SOLUTION HAS BEEN FOUND

**Letter "B" on Oats Means Brooks. Candidate For Recorder on Republican Ticket.**

**PREDICT A LARGE MAJORITY**

Considerable space has been given to stories in the newspapers about the letter "B" which has been found on the oats. The greater part of the stories have been the reason for the appearance of the letter and its meaning. Various and peculiar explanations have been made, but none of them satisfactorily accounted for the strange phenomena or its meaning. But how about this? The letter "B" stands for Brooks, the candidate for the recorder's office on the Republican ticket and the appearance of the letter in so many places only predicts the overwhelming majority which he will pile up in the coming election. There seems to be no doubt but what this is the correct solution.

### MEMORIAL SERVICE.

Martha Poe Chapter No. 143 O. E. S. will hold their Memorial service tomorrow (Wednesday) night. Rev. Willis D. Engle of Indianapolis will be present and deliver a lecture appropriate to the occasion. A full attendance of members is earnestly requested.

In the matter of wages, the highest paid workmen in Turin, Italy, are smiths who got 77 cents to \$1.35 a day.

## GETS SENTENCE IN SHORT TIME

**Judge Sparks Sends McNamery to Prison in Less Than 24 Hours After Capture.**

**PLEADED GUILTY TO CHARGE**

**"Dope Fiend" Goes to Prison to Cure Himself of Habit—Arrested Near Homer.**

A new record of meting out justice in Shelby county was made Sunday and Monday by the local police force and Judge Sparks, says the Shelbyville Democrat. At about eight o'clock Sunday morning Chief of Police Manlove and Officer Fagel gave chase to a pair of hoboes, a white man and a negro, who were seen wandering down the Big Four tracks. At two-thirty o'clock Sunday afternoon the men were captured at Homer, Rush county. At four o'clock the white man confessed to Chief Manlove that he had broken into the William Keppel home, near Rays Crossing, to steal enough food for a lunch. At one o'clock Monday afternoon the man was brought before Judge Sparks and entered a plea of guilty to a charge of petit larceny. At 1:05 he was sentenced to from one to fourteen years in the State prison at Michigan City. He will be placed behind the bars there some time Tuesday.

Persons have on various occasions resorted to desperate measures to free themselves of the drug habit, but for an acknowledged "fiend" to deliberately place himself behind prison bars for from one to fourteen years in order to cure himself is considered just about "the limit." That is virtually what was done by the man who Monday afternoon pleaded guilty in the Shelby circuit court to a charge of petit larceny and was sentenced to the State prison by Judge Sparks. At the time he was seen in company with the negro Sunday morning the only charge which the local police could have had against him was that of vagrancy. The man chose to run instead of surrendering himself, however, and with full knowledge that the officers were following him later broke into the Keppel home to steal a lunch. After committing the crime he seemingly did not care how soon the police caught him as he surrendered himself at Homer without a murmur.

He declared that he has but one relative now living, a sister, who is abroad with her husband who is clerk to a foreign consul. He gave his age as thirty-five years and seems to be fairly well educated. His arms are covered with marks showing where he has made injections of "dope" with a hypodermic needle and he admitted that he had been a "dope fiend" for several years. He stated that he was perfectly willing to go to the prison in order to cure himself of the habit.

The negro who was captured with McNamery, was held in jail for service as a witness for the State if McNamery decided to stand trial, but was released Monday afternoon following the latter's plea of guilty. The colored man gave his name as Lewis Hendricks and stated that his home was in Indianapolis.

Twenty cents' worth of postage stamps was the sum total which a search of McNamery's pockets revealed to the police. The man accounted for the stamps by saying that they had been given him in part payment of a debt by a man over in Illinois. The story did not sound well to Chief Manlove, but there was no evidence on which to hold the man for any of the postoffice robberies which have occurred recently.

## ADMINISTRATION IS CHIRKING UP

The Wave of Popular Fancy Said to Be Turning.

### INSURGENCY IS ON THE WANE

At Least That Is the Hope With Which the President's Friends Are Daily Cheering Themselves, and They Are Reported to Be Getting in Right Good Spirits Again—Congress to Adjourn This Week.

Washington, June 21.—The success which the Taft administration has attained in the last week or so in pushing measures through congress and bringing the solid Republican force behind the administration bills is being reflected in reports which are coming in from all parts of the United States of the growth of the president's popularity. Congressmen from the west, that only a few weeks ago were bitter in their talk of Taft, have been getting letters which indicate that the passage of the railroad bill has done much to reinstate the president in the good graces of the west. The growing impression that Mr. Roosevelt is satisfied with Mr. Taft and will come out strongly in his support is helping to clear the situation in the west, and Taft's friends here are in good spirits now. They think that insurgency is on the wane and that when the present congress finishes its work Mr. Taft's hard-earned victory will be recognized. He himself is pleased with the way congress has responded to his requests, and it is apparent that he is sharing the belief of his friends that there are brighter days ahead for his administration. The railroad and statehood bills have been passed and it practically is certain that the postal bank bill and his conservation bill will be added to the list in a day or two. These bills make a big showing, but the president does not intend to stop there. He has strong hopes of getting through a campaign publicity bill before adjournment, and also a bill creating an Appalachian forest reserve. He is, however, directing his efforts chiefly to the campaign publicity bill and to the few small details that remain in regard to the conservation and savings bank bills. A campaign publicity bill has passed the house, and it is planned to take it up in the senate as soon as the remaining two administration bills are out of the way. Preparations are going on for the adjournment not later than Saturday. Vice President Sherman expresses the opinion that congress will adjourn by the end of the week.

### TAFT AT YALE

The President Will Be Present at Son's Graduation.

Washington, June 21.—The president and Mrs. Taft will close the commencement season tomorrow at Yale, where they will see their eldest son, Robert, graduated. The president and Mrs. Taft left for New Haven today. From New Haven Mrs. Taft will go to Beverly for the summer, and Charlie and probably Robert will go with her. The president will come back to Washington, arriving here Thursday morning. He will remain here from then until three or four days after congress adjourns, when he will join his family at Beverly.

### Wanted to See It Signed.

New York, June 21.—Many of the men from Arizona and New Mexico who came here to see the homecoming of Teddy, went to Washington to try to get a look in at the signing of the statehood bill passed by congress last Friday.

### A SNAP SHOT

Colonel Roosevelt on the Kaiserin Auguste Victoria.

## THE PULLMAN PEOPLE MUST REDUCE RATES

Interstate Commerce Commission Remains Firm.

Washington, June 21.—The interstate commerce commission has denied the application of the Pullman Car company to postpone the date on which the commission's order requiring the company to lower its rates shall become effective. The order, therefore, will become operative and the rates will go into effect on July 1. Judge Grosscup of the federal court in Chicago having already declined to grant an injunction restraining the commission. The reductions which the company will make, however, will not be general, but will merely affect the rates covered in the committee's original order from Chicago and St. Paul to Seattle and western points. The commission has decided to grant the company a rehearing, as they claim to have new evidence which will convince the commission that they are not charging too great a rate at present. The rehearing will not be for some time, however.

## BIG ROW IS ON IN CHURCH COLLEGE

Trustees of Vanderbilt University to Be Ejected.

### DEFIANCE OF CHURCH ALLEGED

Bishop Hendrix Will Be Cited For Trial Before the Elders of the Methodist Church South and the Chancellor of Vanderbilt University Will Be Removed From His Office by the College of Bishops.

Memphis, Tenn., June 21.—Bishop E. R. Hendrix of Kansas City, Mo., will be cited for trial before a committee of twelve elders of the Methodist church south in sixty days. Chancellor J. H. Kirkland of Vanderbilt university will be removed from his office by the college of bishops next month and nineteen members of the board of trustees will be ejected from their trusteeship for insubordination and defiance of the church. A lawsuit will be brought in the federal court at Nashville, Tenn., where Vanderbilt college is located, to enforce the rights of ownership and control of the property by the church south, and to force the present trustees to accept the three trustees elected at the general conference at Asheville, N. C.

This is the situation in regard to the battle that has raged around the college lately. W. K. Vanderbilt, head of the great family that has so liberally endowed the Methodist institution, has openly espoused the cause of the trustees who are in rebellion against the church's authority and has written Chancellor Kirkland a letter in which he says that he has always understood that the trustees was a self-perpetuating body and the Methodist church did not own or control the college.

Bishop Hendrix is the president of the board. At the recent conference the church went on record by practically a unanimous vote as holding that the college belongs in fee simple to the Methodists of the south and instructed the college of bishops, of which Bishop Hendrix is a member, to take all legal steps to enforce this claim, and the rights of the church in the college. When the board of trustees met recently it rejected three trustees that the church had elected to fill vacancies and tabled a resolution that they avowed affirmed the ownership of the church. Bishop Hendrix was with the majority in both votes, and this constitutes the sum and substance of his offending.

### GAVE HIMSELF UP

"Bloody Breathitt" to the Fore Again With a Double Killing.

Jackson, Ky., June 21.—Asbury Spicer, a well-to-do farmer of Breathitt county and once a prominent figure in the Hargis feud, shot and killed Asbury Fugate, a tenant on Spicer's farm, and Mrs. Demie Johnson, and wounded Fugate's mother.

The killing occurred in the country, and the first known of it was when Spicer telephoned that he had killed Fugate and shot his mother and was coming to Jackson to give himself up. Spicer telephoned to Sheriff Hudson that he would surrender, but the latter left at once for Jetts creek, the scene of the tragedy.

It is reported that Mrs. Fugate will recover. Mrs. Johnson was a member of the Fugate household. Mrs. Fugate was wounded when she tried to defend her son from Spicer. The slayer was one of those accused of the murder of Dr. Cox.

### A TEMPERATE MAN

Reflection From Paris on Kaiser's Habits Indignantly Denied.

Berlin, June 21.—The nation has felt the most serious doubt and anxiety concerning the Kaiser's condition, and in spite of the reassuring reports there is still some uneasiness. Much indignation is expressed by the papers of the city over a suggestion which came from Dr. Doyan of Paris that the Kaiser's ailments are due to alcoholism. To meet this a statement has been printed describing the Kaiser's temperate habits and asserting that for the last three years he has been almost a teetotaler. His favorite drinks are lemonade and orangeade, while at banquets he has a specially prepared drink which resembles champagne in appearance, but which is non-alcoholic.

### "Nothing to Say."—Jim Patten.

Chicago, June 21.—James A. Patten has returned from New York, where he was a center of interest as a result of his indictment in connection with the cotton pool which he conducted with several other big cotton traders. He talked of wheat and corn, but not cotton. "I am not giving interviews on the subject of cotton, and there is no use pressing the matter," said he.

### Baptists Hold Convention.

Muncie, Ind., June 21.—The annual state convention of Baptist Sunday schools and of the Baptist Young People's Union is being held in the Walnut Street Baptist church here. A number of prominent church workers are present and nearly every Baptist Sunday school in the state is represented.

### MORE PROOF

Parisian Sage Stops Falling Hair and Makes it Grow, or Money Back.

People who are not using Parisian Sage are not using the best, most delightful and refreshing hair grower and tonic in the world.

Parisian Sage is the big seller nowadays because when once tried no one ever goes back to the ordinary commercial tonics.

Read this: Mrs. Alberta Van Hiel, 725 Monmouth St., Trenton, N. J. on October 14, 1909, wrote: "I have used Parisian Sage, and can say safely, that it has been very beneficial to my hair, stopping my hair from falling out, and curing dandruff, and making my hair much thicker and nicer."

Last summer I had the measles and my hair came out in handfuls, I thought I would have to have it cut off. I got a bottle of Parisian Sage, used it, and it saved me from having my hair cut off."

Parisian Sage is sold by druggists everywhere and by F. B. Johnson & Co. and is guaranteed to cure dandruff, stop falling hair and itchy scalp in two weeks or money back. It makes women's hair bewitching, lustrous and luxuriant. Big bottle for 50 cents mail orders filled, charges prepaid, by American makers, Giroux Mfg. Co., Buffalo, N. Y.

The visitors at Niagara Falls last year are estimated at 1,500,000, this having been surpassed only twice in the history of Niagara Falls—once during the Pan-American exposition at Buffalo, 1902, and once in 1903.

### Kept the King at Home.

"For the past year we have kept the King of laxatives—Dr. King's New Life Pills—in our home and they have proved a blessing to all our family," writes Paul Mathulka of Buffalo, N. Y. Easy, but sure remedy for all Stomach, Liver and Kidney troubles. Only 25 cents at F. B. Johnson & Co.

Tell some deserving Rheumatic sufferer, that there is yet one simple way to certain relief. Get Dr. Shoop's book on Rheumatism and a free trial test. This book will make it entirely clear how Rheumatic pains are quickly killed by Dr. Shoop's Rheumatic Remedy—liquid or tablets. Send no money. The test is free. Surprise some disheartened sufferer by first getting for him the book from Dr. Shoop, Racine, Wis. Sold by Frank E. Wolcott.

### SAGE FOR DARKENING THE HAIR.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to their hair with wonderfully beneficial effect. Nowadays we don't have to resort to the old-time, tiresome method of gathering the herbs and making the brew. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready made product. Wyeth's Sage and Sulphur, containing sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation is sold by all first-class druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by Hargrove & Mullin.

### An Expert's Opinion of Skin Disease.

A prominent, national expert on skin diseases whose name you are familiar with says that in all his scientific experience he has never found so hard a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, itching skin disease, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only do its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old style greasy salves and lotions which are not only unpleasant to use but do not destroy the germ life that causes the disease. ZEMO draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Mr. F. E. Wolcott will gladly supply those who call with a free sample bottle of ZEMO and a booklet which explains in simple language all about skin disease and how to cure yourself at home with ZEMO.

## Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong, Sick Women Well.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition.

Mr. and Mrs. Willie Martin.

## Wrecks in Business

often happens because a man is overcome by worry. What the run down man needs to save his health and business is Dr. King's New Health Tea—Nature's remedy for the stomach, Liver and Kidneys. It imparts new strength, and vigor to weak and nervous people. Only 25 cents at F. B. Johnson & Co.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a stomach nerve, or it may have given strength and support to the heart and kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the stomach nor to temporarily stimulate the heart or kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once and see! Sold by Frank E. Wolcott.

## How to Cure Eczema, Pimples, And Dandruff.

We desire to say that when we took the agency for ZEMO, we were convinced that it was a valuable remedy for Eczema, pimples, and dandruff. Yet, we must frankly admit that Zemo has far exceeded our expectations as a treatment for skin diseases. We are pleased to state that we shall continue the agency as ZEMO has given splendid results wherever recommended. Our customers like ZEMO too, because it is a clean vegetable liquid for external use.

ZEMO effects its cures by drawing to the surface of the skin and destroying the germ life that causes the disease, leaving the skin clear and healthy. It does not soil the clothing or linen and can be used freely on infants.

With every purchase, we give a booklet on skin disease explaining in simple words how any person can be cured at home of any form of skin or scalp diseases by this clean, scientific remedy. F. E. Wolcott, Druggist.

## Mad Dog! Crys the Crowd and Then the Chase Begins

Regarding the mad dogs, which is now a very timely subject, the Richmond Palladium, editorially, says:

At this time of the year, thanks to the handing down of a mediaeval superstition, no dog is safe. "Mad dog!" cry the crowd and then the chase begins. Some poor sick animal, without proper food or water has come along thirsty, weary, panting, desiring only a few moments of rest and a little water. Chased then, over hill and valley, battered with stones, harried by excited men and boys—the dog becomes frenzied hunted animal, the froth of hard running, mixed with the dust hangs on his lips. And, lo, the dog is killed! The mad dog!

And the dog who started out so bravely in the morning to find his master is thus killed in response to superstition even as the Salem witches and the possessor of the Evil Eye.

It was no more than yesterday that a zealous reporter of a paper in this town conjured a full fledged first page mad dog story out of thin air and sent forth to all the world another "mad dog" story.

The fact that there was a stray dog in a barn lot of a dairyman. The wife of the dairyman not wishing any chance to be taken with strange dogs to the detriment of a flourishing milk business called on the men working on the place to investigate.

They found nothing the matter with the animal.

But behold the product of many repetitions and the effort to make a readable story! We do not know whether the newspaper man was imposed on, for it is on the word of others that the daily newspaper must for the most part rely.

But this is certain—there is a disposition at this time of year to make a mad dog out of every tired dog that has not had enough water.

Another mad dog, this time a large white bulldog, was chased across country a distance of several miles in the vicinity of Elkhorn the other evening. Not until dark did Ralph Cooper, Jonas Gaar and employees of J. L. Bachelor, dairyman, give up the hunt. The farmers of the vicinity have been warned and are on the lookout for the infected animal with shotguns, rifles and other weapons. So far as can be learned no other dogs or stock were bitten by it.

The seriousness of the local situation has dawned upon all stock owners of the vicinity. Reports of renewed outbreaks of rabies are of daily occurrence and many fine animals are being killed. Veterinarians have issued notices that all kinds of stock must be examined and watched carefully at the risk of entire farms being rendered barren.

The ownership of the mad bull dog could not be ascertained. Inquiries were made and it was learned that it was seen in the vicinity during the afternoon, but apparently it had strayed, presumably from the city.

Reports from Indianapolis state that the rabies is unusually prevalent all over the State this year. The losses for 1910 are already greater than for the entire of 1909 and the worst season, July and August, is yet to come.

Mad dogs there be with rabies, but they are few according to those doctors and veterinarians who keep the records.

Mad dogs there be by the million according to those who hate them.

Mad dogs or sick dogs.

Mad dogs or thirsty dogs—

Give the dogs plenty of water, and enough care and attention, or by all that is certain there will be a crowd of insane men running after a harried and frenzied dog crying "Mad dog!"

## Disease and Death in State

The total school enumeration of the State for the year 1910 is 754,972, a gain of 5668, as compared with the 1909 enumeration, according to the figures just compiled in the office of the state superintendent of public instruction. The tendency of the country districts, the towns and smaller cities is to exhibit losses, while the larger cities show the gains.

The chief increases in counties are in Marion, St. Joseph, Lake, Vigo, Laporte, Grant, Delaware, Vanderburg and Madison. Sixty-four counties in the State show a loss, while twenty-eight show a gain. While there has been a gain, as compared with last year, the figures of 1910 are 9706 lower than the 1908 figures and 20,953 lower than the 1907 enumeration.

Race suicide, a more careful enumeration and migration to the cities are assigned as the reason the totals do not show up well compared with former years. State Superintendent of Public Instruction Robert J. Alez says he believes that as the years pass the communities having a fixed population will continue to show decreases on account of smaller families than formerly and the gains will be in industrial centers to which people are flocking constantly.

Deputy State Superintendent John I. Hoffman, in explaining the increases in the cities this year, says that last year many of the cities showed heavy losses, and for this reason more care was given to the work this year. The reappointment of taxes on the basis of enumeration, leading to reduced revenues in some cities, made enumerators careful this year to find and enumerate as nearly as possible every child within the corporation.

The statistics have been tabulated at the state superintendent's office according to townships, towns and cities. The townships show a total of 401,967 persons of school age, a loss of 5663 as compared with a year ago. The towns show 56,027 a loss of 546, while the cities report an enumeration of 296,978, a gain of 11,877, the increase in the cities more than overcoming the losses in towns and townships.

The white males total 382,905; white females, 356,541; colored males, 7834, and colored females, 7629.

## Can't Pay That Premium

Beside a frugal table though spotless clean and white, A loving couple they did sit and all seemed pleasant, quite; They did not have no servant the things away to take, For he was but a broker who much money did not make.

(Key changes to minor)

He lit a fifty-cent cigar and then his wife did say:

"Your life insurance it will lapse if it you do not pay."

He turned from her in sorrow, for breaking was his heart

And in a mezzo baritone to her did say, in part:

Chorus—"I can not pay that premium, I'll have to let it go;

It fills me with remorse and sorrow, not to mention woe.

Though I'm quite strong and healthy and will outlive you, perhaps,

I can not pay that premium; I'll have to let it lapse."

The wife she naught did answer, for it cut her to the quick;

She washed the dishes, filled the lamp and likewise trimmed the wick;

She took in washings the next day and played bridge whilst all night,

Until she had enough to pay her husband's premium quite.

(Key changes to minor)

The husband he was thrown next day from his au-to-mo-bile,

And although rather lonesome it did make his widow feel,

It made her glad to know that she paid that prem-i-um,

And oftentimes in after years these words she'd softly hum:

Chorus—"I can't pay that premium," etc.

—Franklin P. Adams.

## Neglect Birth Returns

The law which permits twenty days in which to make a birth return is characterized as detective in the May bulletin of the State Board of Health. The board recently has been conducting a campaign among health officers and physicians over the State in the interests of promptness in making returns. Birth statistics obtained by the board are always a month late, and there has been in the past a tendency on the part of physicians to neglect the statistics department altogether.

The May bulletin shows the births occurring in the State during April totaled 4,332. Of these 2,147 were males, 2,056 females and 129 stillbirths. White males totaled 2,104; white females, 2,015; colored males, 43, and colored females, 41. The State birth rate was 19.1 as compared with a death rate of 14.1. Warren county, as usual, had the highest birth rate, having 51.4 births a thousand. Pulaski had the lowest rate, 7 a thousand. Marion county had 450 births and ten stillbirths, the rate being 20.6, a trifle better than the State average. The counties second and third in the birth rate were Tip-ton with 30.4, and Decatur with 30.2.

In an article by H. E. Barnard, state food and drug commission, the sanitary conditions in food producing establishments in Indiana are declared to be unsatisfactory. Dairies, hotels, restaurants, groceries, meat markets, bakeries and confectionery establishments were among the places visited by the inspectors. Out of a total of 1,127 places visited, only 31 were classed by the inspectors as being in excellent condition, 659 were classed as good, 354 fair, 64 poor, and 19 bad.

Conditions generally in dairies, hotels, restaurants and bakeries were declared to be unsatisfactory. The groceries and meat markets were said to be mostly in good condition.

In discussing the enforcement of the food laws, Mr. Barnard dwells at some length on the practice of giving shortweights. He states this is one of the reasons for the high cost of living. The weighing of wooden butter dishes and wrapping paper on the scales with an order of butter is said by inspectors to be a favorite practice.

The Indianapolis News is trying to pose as a progressive Republican organ, says the Marion Chronicle. The leopard cannot change his spots. The News is a Bourbon, mossback, reactionary free trade newspaper which never learned anything, even when the country went on a soup diet after the last tariff reform victory this country has experienced, and never forgot anything except that its theories have been utterly discredited by events.

The Republican platform of 1908 promised a definite program of progressive legislation. The Republican congress has worked hard to make good under that platform. In a large measure the efforts of the congress have been successful, at the end of the session the Republican party will occupy an advanced and advantageous position in public favor and approval. Where legislation has fallen short of perfection, as all legislation does fall short, more or less, there is a definite movement to provide remedy and amendment. One of the most important achievements of the session comes in the form of an appropriation of \$250,000 to be used in making good the promise that the tariff board shall obtain and furnish facts on which tariff schedules may be readjusted where necessary. All this is in the cause of justice, and to the end that the people shall have the best possible tariff legislation. More than that, the appropriation is a step toward the tariff commission plan, which is being accepted generally as a sane and fair solution of the vexing phases of the tariff problems. It is to be hoped that Republicans are paving the way for a tariff commission. It is to be remembered that the Republican party must be depended on finally to laborate and fully to empower such a commission.

A few Indiana cities have been trying to make a census count to suit themselves this year, but their efforts to make the figures consistent with the feverish hallucinations of the population liars have met with rude rebuffs. It is evident that the census bureau is not in a mood this year to help towns make good on their boom literature. The South Bend Times has this to say about what has been happening at Terre Haute:

"One of Esop's fables tells of the frog that, trying to swell up as big as an ox, burst himself. Terre Haute apparently might have profited

by the fable. The citizens of that thriving town had convinced themselves that it was much bigger than the census enumeration showed; so, with virtuous indignation, they demanded a recount. The demand was acceded to, and a recount taken, which brought the population much nearer the people's ideal. But alas! the swelling seems likely to burst with such names as these: Orin Whoeverinthesamhillheis, Mr. Camp-isokemthegob, A. Sparrow, Mr. Windmill, P. Boozenhagen, Mac M'ikol-schiski, M. Holybutton. In one lodging house 17 names were swelled to 96. The supervisor of the census is investigating the matter. It is not unusual for ambitious residents to think their city larger than it really is. There are doubtless Southbenders who think there are 70,000 people here. The serious misconception of all these ambitious residents is that they attach so much more importance to quantity than to quality of inhabitants."

The Evansville Journal-News persistently inquires: "Has Anybody Here Seen Kern?" He was over in Hancock county a few days ago, but nobody heard him say anything about the eight recreant legislators who promised him but performed for Shively on a cash basis.—New Castle Courier.

The attention of young men is called to the words of the Hon. Leslie M. Shaw, who said in a recent speech that honesty isn't the only attribute that a young man must present when he applies for employment nowadays. Efficiency is the prime demand. All of this is based on the presumption that honesty is general and is accepted as a matter of course, so that it can not be paraded as a positive virtue. This is a fact that ought to be more generally recognized. The average man is honest and the world isn't made up of people in whom viciousness predominates. Sometimes the constant parading of human lapses through the newspapers produces a wrong perspective.

Evidence given before a congressional committee one day last week showed that coffee costs the American consumer from 6 to 8 cents a pound more when admitted free of duty than it costs the German consumer after paying an import duty. Possibly our Bourbon friend, the Indianapolis News, can explain just how it is that the protective tariff makes a duty-free article cost more in the United States than tariff taxed articles in Germany. The case is evidence of the truth of what this paper has frequently asserted, namely, that the distributing trusts fix prices on the basis of what the traffic will bear, and what the traffic will bear depends upon the ability of the consumer to pay. The tariff has just as much to do with fictitious prices of other articles as it has to do with the price of coffee, and no more—Marion Chronicle.

## The Russian Thistle

An Impurity in Indiana Crop Seed

Bulletin of the Purdue University Agricultural Station

On 17 different occasions the seed of Russian Thistle has been found in samples of commercial crop seed sent to the Indiana Branch Seed Laboratory of the U. S. Department of Agriculture, for examination. It has been found in these samples in amounts ranging from 1440 seeds in 16 pounds alfalfa, or enough ordinarily to sow an acre, up to 33,120 seeds in 16 pounds of alfalfa. Thus far in samples examined here, it has occurred in alfalfa seed only. All the crop seed in which Russian Thistle seed was found was imported from other States. Furthermore the weed itself is known to be growing and reproducing itself in several localities in Indiana.

Russian Thistle is slightly larger than clover or alfalfa seed. Unless it has been rubbed off, the seed proper will be found to be capped by a thin covering, which is simply the shrivelled and dried outer portion of the flower. This helps to distribute the seed. The shape of the whole body is conical, color light to dark gray, greatest diameter one-twelfth of an inch; height one-twelfth of an inch. Beneath this outer cover is the seed proper, also cone shaped and covered with a nearly transparent membrane, through which the spirally coiled young plant within haws. Moisture and rub of the membrane and see the greenish embryo inside. The broad end of the seed proper is hollowed out more or less. Color of the seed light to dark gray, diameter and height one-sixteenth of an inch.

## AMUSEMENTS

The Vaudet will have a complete change of program tonight.

The Palace management will offer a good program tonight in the film, "Burley Bill," a comedy of much merit. It is said to be one of the best pictures which ever had a laugh label on it and is said to be full of real rich and pure mirth. A new song will be sung by Miss Iva Brown.

The Star Grand offers a Selig rainy day comedy entitled "Caught in the Rain." The judge has married a charming wife and is insanely jealous of her and he falls an easy prey the machinations of a mischief loving young brother of his wife, who from a spirit of revenge, because of the judge's objection to a love affair, loses no opportunity to fan into a flame the jealousy of his brother-in-law. The plot is carried to the finale by a series of comic situations. The excellent acting and good subject make this film an unusually good comedy. Earl Robertson will sing "Meet me Tonight in Dreamland."

It is not really a thistle. It is a tumbleweed, a close relation of Lamb's Quarters and Pigweed, and like them an annual and a prolific producer of seed, 10,000 to 300,000 per plant. The leaves on young plants are about two inches long, slender, and green. As the plant approaches maturity, the leaves fall off and are replaced on the flowering branches by numerous half inch spines; the plant branches, becomes bushy, two feet high and two to six feet in diameter; the outer branches are usually red at maturity. When dry, it breaks off at the ground and is carried hither and thither, far and wide, with every shifting wind, scattering its seed as it goes.

1. Learn to know the seed and plant. 2. Examine seed carefully before buying, and buy seed free of Dodder and Russian Thistle. Plenty of such seed can be had. 3. Pull up and destroy odd plants that appear in the fields. 4. In infestation is extensive, encourage seeds to germinate, and destroy seedlings; when and how this may be done depends on character of crop on the field. 5. Short rotations, involving clover and well tended cultivated crops, annihilate millions of annual weeds of many kinds.

Bear in mind that to know what to look for, to be prepared to deal with it, and to "nip in the bud" this threatening pest will save Indiana farmers hundreds of thousands of dollars.

(New Castle Times.)

Richmond's fourth newspaper, the Richmond Times will make its initial appearance on Tuesday, according to announcement cards which were sent out by its editor, Charles Stivers, formerly of Liberty. The publication will be a semi-weekly, published on Tuesday and Fridays of each week.

Mr. Stivers recently purchased from L. L. Burr most of the presses and printing material formerly used in the publication of the New Castle Tribune. He then stated that he would publish a paper in Richmond, and also conduct a job printing office, leaving the Liberty Herald in charge of his son.

What "issue" the new paper will espouse is not stated, but rumor says it will be standpoint politically and "dry" morally.

"Why are you so unwilling to acknowledge me?" she cried, with a nervous indignation that lent a tremor to her voice. "You have met me often enough. You saw me on Sunday at my uncle's house."

"Did I?" said Coke, speaking at last, but really as much at a loss for something to say as the girl herself. He had recognized her instantly, just as he would recognize the moon if the luminary fell from the sky and with as little comprehension of the cause of its falling.

Of course she took the question as a forerunner of blank denial. This was not to be borne. She fired into a direct attack.

"If your memory is hazy concerning the events of Sunday afternoon it may be helpful if I recall the conversation between my uncle and you in the summer house," she snapped.

Some of the glow fled from Coke's face.

"Wot's that you're sayin'?" demanded Coke, coming nearer and looking her straight in the eyes.

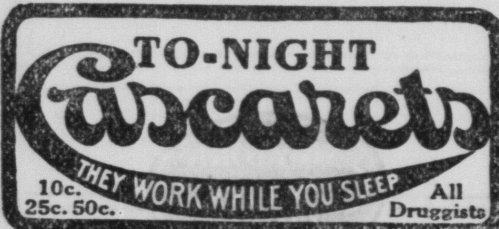

"I heard every word of that interesting talk," she continued valiantly. "I know what you arranged to do, so I have promised—to marry Mr. Bulmer—when the Andromeda—comes back!"

A light broke on Coke's intelligence that irradiated his prominent eyes. His heavy lips relaxed into a cunning grin.

"Oh, is that it?" he said. "Artful old dog, Verity! But why in—why"

It. It's dead easy. Them stays are a bit troublesome if they run to size, but she's thin enough as it is. Anyhow, I can show you a fine trick for that. Just turn her over till I cast a lashin' loose with my knife."

Watts was elbowed aside so unceremoniously that his temper gave way. Hozier lifted Iris' head gently and unfastened the neck hooks of her blouse. He began to chafe her cold hands tenderly and pressed back the hair from her damp forehead. The "chief," not flattered by his own reflections, thought fit to sneer at these half measures.

"She's only a woman like the rest of 'em," he growled, "even if she is the owner's niece, an' a good lookin' gal at that. I s'pose now you think?"

"I think she will want some fresh air soon, so you had better clear out," said Philip.

His words were quiet, but he flashed a warning glance at the other man that sufficed. Watts retired, muttering sarcasms under his breath.

Iris revived, to find Philip supporting her with a degree of skill that was remarkable in one who had enjoyed so little experience in these matters. She heard his voice, coming, as it seemed, rapidly nearer, urging her to slip something very fiery and spirituous. Instantly she protested.

"What are you giving me?" she sobbed. "What has happened?"

Iris pushed away the glass and sat up.

"You carried me?" she said.

"Well, I couldn't do anything else."

"I suppose you don't realize what it means to a woman to feel that she has been out of her senses under such conditions?"

"No, but in your case it only meant that you sighed deeply a few times and tried to bite my fingers when I wished to open your mouth."

"What for? Why did you want to open my mouth?"

"To give you a drink. You needed a stimulant."

"Oh!"

By this time a few dexterous twists and turns had restrained those wandering tresses within bounds. She held a hairpin between her lips, and a woman can always say exactly what she means when a hairpin prevents discursiveness.

"I am all right now," she announced. "Will you please leave me and tell the steward to bring me a cup of tea? If there is a cabin at liberty he might put that portmanteau in it which I brought on board at Liverpool."

Hozier fulfilled her requests and rejoined Coke on the bridge.

"Miss Yorke is quite well again, sir," he reported. "She wants a cabin—to change her clothes, I imagine. That bag you saw?"

"Pretty foxy, wasn't it?" broke in Coke, with a gleeful that was puzzling to his hearer.

"The whole affair seems to have been carefully planned," agreed Philip. "But, as I was saying, she asked for the use of a cabin, so I told the steward to give her mine until we put into Queenstown."

Coke, who had lighted another black and stumpy cigar, removed it in order to speak with due emphasis.

"Put into h—!" he said.

"But surely you will not take this young lady to the river Plate!" cried the astonished second officer.

"She knew where she was bound when she came aboard the Andromeda," said the skipper, frowning now like a man who argues with himself. "There's her portmanteau to prove it, with a label, an' all in her own 'and writin'."

It's some game played on me by 'er an' 'er uncle. Anyhow, the first time she sees land again it'll be the lovely 'arbor of Pernambuco, an' that's straight. 'Ere she is an' 'ere she'll stop, an' the best thing you can do is spread the notion among the crew that she's runnin' away to avoid marryin' a man she doesn't like. That sounds reasonable, an' it 'appens to be true."

Verity an' me talked it over last Sunday p. m."

"To avoid a marriage!" repeated Hozier.

"Yes, that's it," said Coke. "But look 'ere, me boy, this gal sails under my flag. I'm—wot d'ye call it?—in loco-motive parentibus, or something of the sort, while she's on the ship's books. You keep your mouth shut an' wink the other eye an' leave it to me to give you the chance of your life. Eh, wot?"

Philip Hozier did not strive to extract the precise meaning of the skipper's words. The process would have been difficult since Coke himself could not have supplied any reasonable analysis. Somehow, to the commander's thinking, the presence of the girl seemed to make easier the casting away of the ship. Exactly how or what bearing her strangely begun voyage might have on subsequent events he was not yet in a position to say.

"Queenstown!" he chuckled. "Not this journey—not if my name's Jimmie Coke, the man 'oo is stannin' on all that is left of 'is 'ard earned savin's. No, sir; I've got me orders, an' I've got me letter, an' the pore old Andromeda gets ripped to pieces in the Redife or I'll know the reason why. Wot a card to play at the inquiry! Owner's niece on board bound to South America for the good of 'er health. 'Oo even 'eard of a man sendin' 'is pretty niece on a ship 'e meant to throw away? It's providential, that's wot it is, reel providential! I do believe ole Verity 'ad a 'and in it."

## CHAPTER III.

WHEREIN THE ANDROMEDA NEARS THE END OF HER VOYAGE.

"FIVE bells, miss! It'll soon be daylight. If you want to see the cross, now's your time!"

Iris had been called from dreamless sleep by a thundering rattle on her cabin door. In reply to her half-awakened cry of "All right!" the hoarse voice of a sailor told her that the Southern Cross had just risen above the horizon. She resolutely screwed her knuckles into her eyes and began to dress. In a few minutes she was on deck. A long coat, a tam-o'-shanter and a pair of list slippers will go far in the way of costume at night in the tropics, and the Andromeda's seventeenth day at sea had brought the equator very near. At dinner on the previous evening—in honor of the owner's niece fashionable hours were observed for meals—Mr. Watts mentioned by chance that the cross had been very distinct during the middle watch, or, in other words, between midnight and 4 a. m. Iris at once expressed a wish to see it, and Captain Coke offered a suggestion.

"Mr. Hozier takes the middle watch tonight," said he. "We can ax 'im to send a man to pound on your door as soon as it rises. Then you must run up to the bridge, an' 'e'll tell you all about it."

If Iris was conscious of a slight feeling of surprise she did not show it. Hitherto the burly skipper of the Andromeda had made it so clearly understood that none of the ship's company save himself was to enjoy the society of Miss Iris Yorke that she had exchanged very few words with the one man whose manners and education obviously entitled him to meet her on an equal plane. Even at meals he was often absent. So Coke's complacency came now quite unexpectedly, but Iris was learning to school her tongue.

"Thank you very much," she said. "When shall I see him?"

"Oh, you needn't bother. I'll tell 'im meself."

She was somewhat disappointed at this. Hozier would be free for an hour before he turned in, and they might have enjoyed a nice chat while he smoked on the poop. In her heart of hearts she was beginning to acknowledge that a voyage through summer seas on a cargo vessel, with no other society than that of unimaginative sailors, savored of tedium, indeed almost of deadly monotony. Her rare meetings with Hozier marked bright spots in a dull round of hours. During their small intercourse she had discovered that he was well informed. They had hit upon a few kindred tastes in books and music. They even differed sharply in their appreciation of favorite authors. And what could be more conducive to complete understanding than the attack and defense of the shrine of some tin god of literature?

While, therefore, it was strange that Captain Coke should actually propose a visit to the bridge at an unusual time—at a time, too, when Hozier would be on duty—it struck her as far more curious that he should endeavor to prevent an earlier meeting.

"I shall be delighted to come at any time. I have often read about the Southern Cross, yet three short weeks ago I little thought!"

"You really didn't think about it at all," broke in Coke. "If you 'ad you 'ad known you couldn't cross the line without seein' it."

To be Continued.

## If Sick

Don't risk even one single penny!

And I will tell you why I say this.

It is because every package of Dr. Shoop's medicine is absolutely free if it fails.

No one need risk even one single penny.

Just think what this means to the suffering sick!

No risk, no expense, nothing whatever unless health is restored. For 30 full days, and without the risk of a single penny, you can use either of my two famous remedies—Dr. Shoop's Restorative or Dr. Shoop's Rheumatic Remedy.

Then why take any chance whatever?

Why purchase any medicine whose maker dare not back it just as I do by this remarkable offer?

And besides, I am no stranger to you.

My "No Risk" plan has made Dr. Shoop's Restorative famous in every home and in every land. The doctor who said, "We take no chance whatever here," has made Dr. Shoop's Restorative famous in every home and in every land.

For twenty years Dr. Shoop's medicines have become thoroughly standardized all over America.

And I have been honest and responsible druggists in every city and village everywhere to accept my plan for 20 years.

These selected druggists are placing my medicines with the sick—and the entire risk is mine alone.

But write me first for an order.

I have an agent in almost every community—but all druggists are not authorized to grant the 30 day test.

So drop me a line, please—and thus save all disappointments and delays.

Besides, you are free to consult me by letter as you would your home physician. Do so freely and fully—if you desire. My advice and the book below are yours—and without cost. Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan.

Besides, the books will open up new and helpful ideas to you. They tell of my 30 years experience at the bedside in home and in hospital. All phases of sickness and relief are told of here. They tell of my "inside nerve" no larger than a silkworm that gives to the Heart its impulse. How the Stomach and Kidney each have their inside or power nerve. How these organs surely falter when these controlling or master nerves begin to fail. How Dr. Shoop's Restorative goes directly to these failing nerves, and rebuilds, and with the aid restores the lost tone and power. I can surely help you—if it is within the power of medicine to do so. My best effort is surely worth your simple request. So write now, while it is fresh in mind, for tomorrow never comes. Dr. Shoop, Box 12, Racine, Wis.

**GETTING INTO HARNESS**  
Colonel Roosevelt Buckles Down to  
Editorial Work.

New York, June 21.—Between see-  
ing his son married, getting his high  
hat pressed and visiting his publish-  
ers, and sizing up the work left on his  
desk at the Outlook office, Colonel  
Roosevelt put in a busy day Monday.  
When the colonel went to the Outlook  
office he greeted Dr. Abbott and looked  
over his correspondence. There is  
plenty of work at the office, and he  
will tackle it tomorrow.

**SEEKING ADJUSTMENT**  
Troubles in Western Coal Mines in  
Way of Adjustment.

Indianapolis, June 21.—Thomas L.  
Lewis, president of the United Mine  
Workers of America, left for Kansas  
City last night to attend a conference  
of miners and operators in the south-  
west field. The miners and operators  
of that section will be present by com-  
mittees, and it is thought the strike  
will be settled before long. At present  
there are about 30,000 idle miners in  
the southwest field and about 5,000  
men at work under contract.

In Washington this week there will  
be a meeting of committees represent-  
ing the United Mine Workers of Amer-  
ica and the Western Federation of Min-  
ers with the executive council of the  
American Federation of Labor to bring  
about a closer connection between the  
Western Federation and the United  
Mine Workers of America.

of her husband. She has the signa-  
tures of 300 senators and representa-  
tives, or more than half of the mem-  
bers of congress, to her petition for  
Morse's pardon. She expects to have  
over 300,000 signatures when she pre-  
sents the petition.

**Joseph Wendling Indicted.**  
Louisville, June 21.—The grand jury  
has indicted Joseph Wendling, the  
school janitor, on the charge of mur-  
dering little Alma Kellner, whose mu-  
tilated body was found several weeks  
ago in the cellar of a parish school.  
Wendling is believed to be under sur-  
veillance in Texas, and Governor Will-  
son has issued a requisition on the  
governor of Texas for the suspected  
murderer.

**Caught at the Crossing.**  
Kokomo, Ind., June 21.—Walter Erv-  
ington, aged seventy-two, a retired  
merchant and former member of the  
United States navy, was instantly killed  
at a grade crossing on the Pan-  
handle railroad in the southeastern  
part of this city. Mr. Ervington was  
in a buggy and drove on the track  
without noticing that a train was ap-  
proaching.

**Deadly Quarrel Over Woman.**  
Bloomington, Ind., June 21.—Benja-  
min Carrinici, aged twenty-four, a la-  
borer, was murdered at the Italian set-  
tlement near the Johnson quarry in  
the stone belt, south of this city. Car-  
rinici was shot by a fellow-workman  
in a quarrel over a woman. His slayer  
escaped.

**MANY THINGS TO  
HOLD ATTENTION**  
Municipal League of Indiana  
In Session This Week.  
**NOT A DULL MOMENT ALLOWED**

With a Program Meaty With Points of  
Vital Interest to Town Governments  
and With Speakers Prepared to Give  
Their Very Best Thought to the  
Problems Presented, the Meeting  
Promises Much of Profit.

Richmond, Ind., June 21.—That the  
Municipal League of Indiana is an or-  
ganization with a definite purpose in  
view—to educate public officers better  
in the needs of municipalities and to  
point out the ways and means of ac-  
quiring these needs—probably will be  
more forcefully demonstrated at the  
league's annual convention in this city  
this week than ever before. The opin-  
ion has prevailed among some citizens  
that the annual pilgrimages of city  
and town officers was something in the  
nature of a good time, with little at-  
tention given to municipal study.

Richmond hopes to give the public  
officers of more than 200 cities and  
towns in Indiana a real-for-sure good  
time this week, but it is expecting in  
return to see a dignified and intelli-  
gent body of men striving with prob-  
lems that have vexed both public offi-  
cers and citizens for many years. There  
certainly is enough "meat" in the  
program prepared for the convention  
which opened today to give the dele-  
gates all they can desire in the way  
of business, and the city govern-  
ment, the Commercial club and other  
organizations have done their part in  
providing entertainment.

Two hundred delegates are expected  
to attend the convention, and as these  
men will represent directly the citizens  
of their respective cities and towns,  
the actual work of the convention will  
have considerable importance. Joseph  
T. McNary of Logansport is president  
of the league. Mayor Zimmerman wel-  
comed the league members at the open-  
ing session this afternoon, and busi-  
ness began without further cere-  
mony. The program for Wednesday  
and for Thursday is filled with good  
and timely subjects and there is prom-  
ise of few dull moments during the  
three days. On Wednesday evening  
the Commercial club will give a ban-  
quet to the league members. There is  
some prospect that the league, in its  
consideration of the cities and towns  
law, will not be slow in pointing out  
some of the alleged defects, and it is  
more than likely that the legislative  
committee will have some duties to  
perform in the way of mapping out  
some proposed amendments for the  
general assembly to consider next win-  
ter. Special interest is being shown  
in the address on Wednesday of W. A.  
Dehority, state examiner, who will dis-  
cuss some of the features of the public  
accounting law now being tried out  
in Indiana.

**BIG HAIL STORM**  
Great Destruction Caused in Peters-  
burg District.

Petersburg, Ind., June 21.—This sec-  
tion of southern Indiana has been vis-  
ited by the worst hailstorm in its his-  
tory, the hail following a cloudburst.  
It destroyed many fields of grain.  
Practically every window in the town  
of Algiers was destroyed. Cattle were  
wounded, but no fatalities were re-  
ported. Hailstones five inches in cir-  
cumference fell and hundreds of chick-  
ens were killed. Growing wheat and  
corn were beaten to the earth and the  
blades shredded. The wheat and oats  
crops are practically ruined, the dam-  
age estimated at \$100,000.

**Spanish Veterans to Meet.**  
Richmond, Ind., June 21.—Frank C.  
Kibbey of this city, state commander  
of the United Spanish War Veterans,  
is at work on the program for the sev-  
enth annual encampment of the organ-  
ization, which will be held here next  
week, beginning Monday evening. In  
addition to representatives from every  
camp in the state, all of the depart-  
ment officers will attend and plans are  
under way to entertain the visitors  
handsomely.

**How He Settled Quarrel.**  
Newcastle, Ind., June 21.—Charles  
Conner, aged thirty-five, of Mt. Sum-  
mit, after a family quarrel, blew the  
top of his head off with a shotgun.  
Conner and his wife had disagreed and  
she had left with two of her four  
children for the home of her parents.  
Conner then took the other two chil-  
dren to relatives and, returning home,  
ended his life.

**Prison For Stealing Preserves.**  
Shenoyville, Ind., June 21.—Michael  
McNarry, Jacksonsville, arrested in  
Homer charged with stealing a can of  
fish and preserves from the home of  
William Keppel, near Ray's Crossing,  
was sentenced from one to fourteen  
years in prison.

**A Boy's Revenge.**  
Muncie, Ind., June 21.—Because  
Frederick Shultz, aged twelve, wish-  
ed to "get even" with his playmate,  
Jim Cooper, he set fire to the barn of  
the Cooper boy's father. He has been  
sent to the Indiana boys' school at  
Plainfield.

**AN AERIAL FLEET TO  
ATTACK BATTLESHIP**  
Proposed Try-Out of Latest  
Problem In Warfare.

New York, June 21.—Atlantic City  
is all prepared to outdo the entire uni-  
verse one better in up-to-date matters  
by holding a sham battle of airships  
during the coming "Over the Ocean"  
aviation week. The Atlantic City  
Aero club has sent an application to  
the powers at Washington asking for  
a ship to shoot up an airship fleet,  
which the club hopes will be directed  
by Aviators Curtiss, Hamilton and  
Brookins, the last named a pupil of  
the Wrights who has been doing great  
stunts with aeroplanes in Indianapolis.

The Atlantic City club wants the  
navy department to place a warship  
off Young's pier during the airship  
week, and they have made rules where-  
by each airship pilot will be supplied  
with three bags of sand stamped with  
a mark assigned to each aviator. An  
attempt will be made to drop one of  
the sandbags, supposing it to be a high  
power explosive, upon the battleship  
deck from an aeroplane. The sandbag,  
of course, is supposed to contain  
enough destructive powder to transfer  
the sea-fighter from surface service to  
the fleet of Admiral McGinty, and  
therefore out of terrestrial business.

A prize of \$1,000 will be awarded the  
first aeronaut who succeeds in drop-  
ping one of the sandbags on the bat-  
tleship deck. As a method of defense  
three-inch rapid-fire guns, fitted with  
telescope cameras fastened to the bar-  
rels of the guns and adjusted so that  
the firing of the gun will snap the  
shutter of the camera and take a pic-  
ture showing that the center of the  
picture is the spot where the shell  
would strike had not blank cartridges  
been used on the battleship, is the  
Aero club's idea of counting the score  
of hits. The cameras on the airship  
also are supposed to settle the ques-  
tion if the aeroplane was hit and  
wrecked before the sandbags sank the  
battleship. Supposing the score shows  
that the battleship wrecks the aero-  
plane fleet first, the \$1,000 prize is to  
go to the crew of the ship, or, if the  
navy department does not like this  
idea, the money will be devoted to  
some benefit arrangement for the  
crew.

**Feared He Would Be Robbed.**  
Indianapolis, June 21.—Believing he  
was about to be robbed, Antone Malla-  
bra, sixty-five years old, shot John  
Roush about 11 o'clock last night in  
his room at 1619 South Meridian  
street. Both men roomed at the house.

**Eczema—A Germ Disease Can  
Now be Cured.**

The Medical profession is all  
agreed that ECZEMA is a germ dis-  
ease, but the thing that has baffled  
them is to find some remedy that will  
get to the ground and destroy them.  
Zemo, the clean, external treat-  
ment has solved this difficulty by  
drawing the germs to the surface of  
the skin and destroying the germ life  
that causes the disease. The whole  
method of treatment and cure by  
ZEMO is explained in an interesting  
book on the subject issued by the  
makers of ZEMO. It tells how to  
cure yourself at home of Eczema,  
Blackheads, Pimples, Dandruff, and  
all diseases of the skin and scalp.  
Call at F. E. Wolcott's Drug Store  
for Booklet and learn more about this  
clean, simple remedy that is now  
recognized the standard treatment for  
all diseases of the skin and scalp.

## HAD PLANNED TO ATTEND MEETING

Probable That Prof. J. L. Shauck of Arlington Will be Only Teacher to go to Gathering.

### OF THE NATIONAL EDUCATORS

Several teachers had planned to attend the forty-eighth annual convention of the National Educational association of the United States, to be held at Boston, Mass., July 2 to 8, but it is very probable that Prof. J. L. Shauck of Arlington will be the only instructor in this county who will go.

An elaborate program has been prepared. On the morning of July 4 there will be a musical pageant of children on the Boston Common and in the afternoon the first general session will be held in the Harvard stadium, with Governor Kitchin, of North Carolina, David Starr Jordan of California, and President Taft as the principal speakers. Former President Roosevelt has been invited to speak at one of the sessions and his acceptance is confidently expected. Each afternoon of July 5 to 8 is left free for visits with guides to interesting literary and historical localities in and about Boston.

The vast enterprise for the reclamation of Mesopotamia will redeem and irrigate 12,500,000 acres. Since last August 3,500 to 4,000 laborers have been at work on the initial projects in northern Mesopotamia.

## URGE A "SAFE AND SANE" 4TH OF JULY

State Board of Health Sends Out Notices to That Effect and Also About Bread Wrapping.

### DRINKING CUPS ARE UNCLEAN

The State board of health has served notice on all county health commissioners and all city and town officers of the State, which have to do with three very important matters, the first of which is the extension of an order pertaining to the wrapping of bread. At a recent special help by the State board of health the board issued an order concerning the wrapping of bread, which was to go into effect on July 1, 1910, to Jan. 1, 1911.

In the second notice the State board recommends that all county health commissioners, city and town health officers, call attention to the fact that a number of lives can be saved and many persons can be saved from being maimed by a rational use of fireworks on July 4th.

In the third notice issued the State board urges the discontinuance of common drinking cups in all school or other public building and public conveyances. Of common drinking cups the board says that they are the means of transmitting numerous diseases and that in addition they are generally uncleanly.

There is a mile of wire in a good piano.

## WATER PRESSURE WAS LOW

Was Turned Off Due to Accident in Making Extension.

The city water was shut off for about a half hour this morning and for that reason the water pressure was low. The force of men was making an extension to the water main in East Eighth street, when the water gates refused to work and threatened to flood things. The repair was made and the water turned on again. An extension has been made to the water main in West First street and another is yet to be made in West Ninth street.

## WILL NOT FILE SUIT AFTER ACCIDENT

A. B. Irvin Has Reconsidered and Will Not Bring Action Against Township.

### THE DAMAGE IS NOT OVER \$100

A. B. Irvin, whose automobile toppled over a bridge abutment near Oxford, Ohio, Sunday, will not file suit against the township as he first expressed himself and as a dispatch from Oxford stated. He has reconsidered the matter, since he has found that the machine was not injured more than to the extent of one hundred dollars, and will not take the action in the courts. He thinks that he can have the machine repaired at a less expense than he could file the complaint and fight the case.

The members of the party, Mrs. Emily Coleman and daughter, Miss Henrietta, and Miss Jeanne Bishop, who only narrowly escaped death, have all recovered entirely from the shock and do not feel any worse for the experience. They were considerably bruised, but have no serious injuries.

The fact that the large touring car has a large wooden frame probably saved it from being twisted completely out of shape is the belief of Mr. Irvin. He says that if it had been a steel frame the machine would have been practically ruined when it went over on its nose into the stream.

## GREENFIELD KNOWS POSTMASTER NOW

Congressman Barnard Has at Last Recommended George W. Duncan, to Take Office July 1.

### LONG OPEN QUESTION CLOSED

At last Greenfield people know who their postmaster will be. George W. Duncan has been recommended by Congressman Barnard and he will take his office the first of next month. The question has been an open one for several months. More than twenty-five years ago, when George W. Duncan was prosecuting attorney for the judicial district composed of Hancock and Henry counties, he appointed William O. Barnard, then a struggling young attorney at New Castle, deputy prosecutor for Henry county, the first substantial beginning of a law practice that led to the bench and finally to the national house of representatives, and it is the general opinion here that the nomination of Mr. Duncan for the postoffice in that city by Congressman Barnard is in appreciation of the assistance given the young lawyer when it was most acceptable. Mr. Duncan recently retired as a member of the board of trustees of the Sailors' and Soldiers' Orphans' home. He was a soldier throughout the civil war and was for several months confined in Andersonville prison. He will take charge of the office on July 1 if there is no hitch, and will succeed Walter Bridges, who has served four years as deputy and four years as postmaster.

## SHIRT WAISTS

### Where is the Lady

who, in the course of the hot summer months does not add to her wardrobe several shirtwaists. The shirtwaist is the one garment that is in universal use, and brings to the wearer a sense of the most profound refreshment.

Choosing a shirtwaist should not be done in an off-hand manner, but should be given the attention it justly deserves. Differences in the quality of shirtwaists exist as much as in any other garment. And then there is that satisfaction that comes from the surety that the style—that all-important style—is absolutely correct.

Hundreds of beautiful shirtwaists await you, with the best of the existing styles represented. There is the waist with high collar and long sleeves, the waist with the Dutch collar and long or elbow sleeves, and the waist with low, square neck and elbow sleeves, all elaborately trimmed. Then too there are several styles of strictly tailored waists, either plain, plaited or neatly embroidered.
